

SAMCHULLY CHUCK GREASE

Product Name: SW10 Lithium Complex Grease

Available in: 14oz Tubes.

Samchully SW10 Grease is especially formulated grease for mechanical applications. It is primarily recommended by Samchully for Lathe Chucks. It meets the highest requirements for maximum film strength, operating temperatures, stability and lubrication life essential to today's manual and power chucks.

- Maximum extreme pressure protection
- Exceptional adhesion and cohesion characteristics
- Superior friction-reduction properties protects against heat and wear
- Excellent resistance to water washout and spray off
- Reduces maintenance and downtime
- Reduces operating temperatures
- Extends equipment life

Using Samchully SW10 Grease to lubricate your chuck frequently combined with regular chuck maintenance will help maintain your chuck so it works effectively and safely.

Thame Workholding can also supply an appropriate grease gun dispenser if required.
